Příloha č. 1 PP-Sm-L009-02-1

Tabulka kompatibility léčiv FNOL

INKOMPATIBILITY Y-site
ODDĚLENÍ Klinické farmacie FNOL

	Aciclovir sodium	Amikacin sulfate	Aminophylline	Amiodarone hydrochloride	Amphotericin B	Ampicillin sodium - sulbactam sodium	Calcium chloride(CaCl2)	Calcium gluconate	Cefazolin sodium	Cefepime dihydrochloride	Cefotaxime sodium	Ceftazidime	Ceftriaxone disodium	Cefuroxime sodium	Chloramphenicol sodium succinate	Ciprofloxacin	Citalopram	Clindamycin phosphate	Co-trimoxazole	Colistin mesilate sodium	Dexamethasone sodium phosphate	Dexmedetomidine	Diazepam	Digoxin	Diphenhydramine hydrochloride	Dobutamine hydrochloride	Enalaprilate	Epinephrine hydrochloride	Famotidine	Fluconazole	Furosemide	Gentamicin sulfate	Haloperidol lactate	Heparin sodium	Hydromorphone hydrochloride	Imipenem-Cilastatin / Relebactam	Levofloxacine	Linezolid	Magnesium sulfate MgSO4	Meropenem	Metamizol sodium	Methylprednisolone acetate	Metoclopramide hydrochloride	Omeprazole sodium	Pantoprazole sodium	Piperacillin sodium / tazobactam	Propofol	Tigecycline	Tobramycin sulfate	Valproic acid	Vancomycin hydrochloride	Voriconazole
Aciclovir sodium																																																				
Amikacin sulfate																																																				
Aminophylline																																																				
Amiodarone hydrochloride																																																				
Amphotericin B																																																				
Ampicillin sodium - sulbactam sodium																																																				
Calcium chloride(CaCl2)																																																				
Calcium gluconate																																																				
Cefazolin sodium																																																				
Cefepime dihydrochloride																																																				
Cefotaxime sodium																																																				
Ceftazidime																																																				
Ceftriaxone disodium																																																				
Cefuroxime sodium																																																				
Chloramphenicol sodium succinate																																																				
Ciprofloxacin																																																				
Citalopram																																																				
Clindamycin phosphate																																																				
Co-trimoxazole																																																				
Colistin mesilate sodium																																																				
Dexamethasone sodium phosphate																																																				
Dexmedetomidine																																																				
Diazepam																																																				
Digoxin																																																				
Diphenhydramine hydrochloride																																																				
Dobutamine hydrochloride																																																				
Enalaprilate																																																				
Epinephrine hydrochloride																																																				
Famotidine																																																				
Fluconazole																																																				
Furosemide																																																				
Gentamicin sulfate																																																				
Haloperidol lactate																																																				
Heparin sodium																																																				
Hydromorphone hydrochloride																																																				
Imipenem-Cilastatin / Relebactam																																																				
Levofloxacine																																																				
Linezolid																																																				
Magnesium sulfate(Mg SO4)																																																				
Meropenem																																																				
Metamizol sodium																																																				
Methylprednisolone acetate																																																				
Metoclopramide hydrochloride																																																				
Omeprazole sodium																																																				
Pantoprazole sodium																																																				
Piperacillin sodium / tazobactam																																																				
Propofol																																																				
Tigecycline																																																				
Tobramycin sulfate																																																				
Valproic acid																																																				
Vancomycin hydrochloride																																																				
Voriconazole
