

**Trade name:** PRESEPT™ Disinfectant Tablets

**Product no.:** MSDS-0011007a

**Current version :** 1.0.1, issued: 26.01.2015

**Replaced version:** 1.0.0, issued: 16.12.2014

**Region:** GB

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

Trade name

**PRESEPT™ Disinfectant Tablets (Tablets packed in strips)**

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Relevant identified uses of the substance or mixture**

Product are used for water disinfection, surface disinfections and baby bottle sterilisation.

### 1.3 Details of the supplier of the safety data sheet

**Address**

Advanced Sterilization Products  
a division of Johnson & Johnson Medical Ltd.  
Wokingham, Berkshire, UK

Wokingham, Berkshire, UK RG40 3EW

Telephone no. +44 (0)1344 871081

Fax no. +44 (0)1344 871171

**Information provided by / telephone**

Technical Queries: +44 (0)1344 871081; UK Freephone: 0800 864060

**Advice on Safety Data Sheet**

contact@medgb.jnj.com

### 1.4 Emergency telephone number

01865 407333)

## SECTION 2: Hazards identification

### 2.1 Classification of the substance or mixture

**Classification in accordance with Regulation (EC) No 1272/2008 (CLP)**

Eye irritation, Category 2; H 319

Specific Target Organ Toxicity (single exposure), Category 3; H 335

Hazardous to the aquatic environment, Chronic Category 1; H 410

### 2.2 Label elements

**Labelling according to Regulation (EC) No 1272/2008 (CLP Regulation)**

**Hazard pictograms**

GHS 09

GHS 07

**Signal word**

Danger

**Hazard statements**

EUH031

H 319

H 335

H 410

Contact with acids liberates toxic gas.

Causes serious eye irritation

May cause respiratory irritation.

Very toxic to aquatic life with long lasting effects

**Precautionary statements**

P 261

P 273

P 280

P305+P351+P338

Avoid breathing dust

Avoid release to the environment.

Wear protective gloves/eye protection

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing

P 312

P 337 + P313

Call a POISON CENTER or doctor if you feel unwell

If eye irritation persists: Get medical attention

### 2.3 Other hazards

No data available.

Trade name: PRESEPT™ Disinfectant Tablets

Product no.: MSDS-0011007a

Current version : 1.0.1, issued: 26.01.2015

Replaced version: 1.0.0, issued: 16.12.2014

Region: GB

**SECTION 3: Composition/information on ingredients****3.1 Substances**

Not applicable. The product is not a substance.

**3.2 Mixtures****Chemical characterization**

Aqueous preparation of the following substances with non-hazardous admixtures.

**Hazardous ingredients**

No	Substance name CAS / EC / Index / REACH no	Classification 67/548/EEC	Concentration	%-b.w.
1	<b>Sodium dichloroisocyanurate</b> 2893-78-9 220-767-7  613-030-00-X-	   Oxidising solids, Category 2; H272 Acute toxicity, Category 4, oral; H302 Eye irritation, Category 2; H319 Specific Target Organ Toxicity (single exposure), Category 3; H335 Hazardous to the aquatic environment, Acute Category 1; H400 Hazardous to the aquatic environment, Chronic Category 1; H410	30-65	%-b.w.
2	<b>Adipic acid</b> 124-04-9 204-673-3  607-144-00-9	 Eye irritation, Category 2; H319	10 - 35	%-b.w.
3	<b>Sodium Carbonate</b> 497-19-8 207-838-8 011-005-00-2 01-2119485498-19-XXXX	 Eye irritation, Category 2; H319	2 - 12	%-b.w.

Full text for all notes: pls. see section 16

**SECTION 4: First aid measures****4.1 Description of first aid measures****General information**

In case of accident or if you feel unwell, seek medical advice immediately. Remove contaminated, soaked clothing immediately and dispose of safely

**After inhalation**

Remove affected person from the immediate area. Ensure supply of fresh air. Summon a doctor immediately.

**After skin contact**

Wash off immediately with soap and water. Remove contaminated clothing immediately and dispose of safely. Seek medical attention.

**After eye contact**

Separate eyelids, wash the eyes thoroughly with water (15 min.). Seek medical assistance.

**After ingestion**

Do not induce vomiting. Rinse out mouth and give plenty of water to drink. Summon a doctor immediately. Never give anything by mouth to an unconscious person.

**4.2 Most important symptoms and effects, both acute and delayed**

No data available.

**4.3 Indication of any immediate medical attention and special treatment needed**

Treat symptomatically.

Probable mucosal damage may contraindicate the use of gastric lavage.

**SECTION 5: Firefighting measures****5.1 Extinguishing media****Suitable extinguishing media**

Water spray jet

**Unsuitable extinguishing media**

Carbon dioxide

**Trade name:** PRESEPT™ Disinfectant Tablets

**Product no.:** MSDS-0011007a

**Current version :** 1.0.1, issued: 26.01.2015

**Replaced version:** 1.0.0, issued: 16.12.2014

**Region:** GB

## 5.2 Special hazards arising from the substance or mixture

If heated by outside source to temperatures above 240°C, this product will undergo decomposition with the evolution of noxious gases but no visible flame. Wet material may generate nitrogen trichloride, an explosion hazard.

In the event of fire, the following can be released: Carbon dioxide (CO<sub>2</sub>); Carbon monoxide (CO); Nitrogen oxides (NO<sub>x</sub>); phosgene; chlorine compounds

## 5.3 Advice for firefighters

Product itself does not burn. Adapt extinguisher and fire-fighting measures to fire in the environment. Cool endangered containers with water spray jet. Fire-fighting operations, rescue and clearing work under effect of combustion and smoulder gases just may be done with breathing apparatus. Wear protective clothing

## SECTION 6: Accidental release measures

### 6.1 Personal precautions, protective equipment and emergency procedures

#### For non-emergency personnel

Refer to protective measures listed in sections 7 and 8. Avoid contact with skin, eyes and clothing. Ensure adequate ventilation.

#### For emergency responders

No data available. Personal protective equipment (PPE) - see Section 8.

### 6.2 Environmental precautions

Do not discharge into the drains/surface waters/groundwater. Do not discharge into the subsoil/soil.

### 6.3 Methods and material for containment and cleaning up

Take up mechanically. When picked up, treat material as prescribed under heading "Disposal considerations".

### 6.4 Reference to other sections

Observe protective measures in sections 7 and 8.

## SECTION 7: Handling and storage

### 7.1 Precautions for safe handling

#### Advice on safe handling

Avoid the formation and deposition of dust. Provide good ventilation of working area (local exhaust ventilation, if necessary). Avoid contact with skin and eyes.

#### General protective and hygiene measures

Do not eat, drink or smoke during work time. Keep away from foodstuffs and beverages. Wash hands before breaks and after work. Provide eye wash fountain in work area. Do not inhale dust.

#### Advice on protection against fire and explosion

No special measures necessary.

### 7.2 Conditions for safe storage, including any incompatibilities

#### Technical measures and storage conditions

Store in original container and in a cool dry area where temperatures do not exceed 25 ° C. Keep container tightly closed and store away from incompatible materials (refer to section 10 for list of incompatible materials).

#### Requirements for storage rooms and vessels

Store product in closed containers.

#### Advice on storage assembly

Contact with acid liberates toxic gases. Do not allow water to get into the container. Keep out of reach of children. Store locked up Do not store together with: Acids; Alkalis; Reducing agents

### 7.3 Specific end use(s)

Mix only with water. Use clean dry utensils. Do not mix this product with remnants of any other products. Such uses may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. Vapour space in a closed container may contain a slight amount of chlorine gas and other chlorine containing compounds from decomposition of the product. Exposure to chlorine gas may cause burning of the eyes, burning of the nose and mouth and irritation of the linings of the respiratory tract with coughing, a choking sensation, substernal pain, vomiting, nausea, headache, dizziness and fainting.

Trade name: PRESEPT™ Disinfectant Tablets

Product no.: MSDS-0011007a

Current version : 1.0.1, issued: 26.01.2015

Replaced version: 1.0.0, issued: 16.12.2014

Region: GB

**SECTION 8: Exposure controls/personal protection****8.1 Control parameters****Occupational exposure limit values**

No	Substance name	CAS no.	EC no.
1	No parameters available for monitoring		
	List of approved workplace exposure limits (WELs) / EH40		
	STEL	mg/m <sup>3</sup>	ml/m <sup>3</sup>
	TWA	mg/m <sup>3</sup>	ml/m <sup>3</sup>

**Other information**

Please see your local regulations.

Substance name	CAS no.	EC no.
Sodium dichloroisocyanurate	2893-78-9	220-767-7
DNEL Workers dermal Long-Term Exposure	2.3	2.3 mg/kg bw/day
DNEL Workers inhalation Long-Term Exposure	8.11	mg/m <sup>3</sup>

**8.2 Exposure controls****Appropriate engineering controls**

Use only in well-ventilated areas. Provide local exhaust ventilation where dust or mist may be generated. Ensure compliance with applicable exposure limits.

**Personal protective equipment****Respiratory protection**

If workplace exposure limits are exceeded, a respiration protection approved for this particular job must be worn. In case of aerosol and mist formation, take appropriate measures for breathing protection in the event workplace threshold values are not specified. An approved respirator with EN140 (chlorine) cartridges may be permissible under certain circumstances where airborne concentrations are expected to exceed exposure limits, or when symptoms have been observed that are indicative of overexposure. The added protection of a full face piece respirator is required when visible dusty conditions are encountered and eye irritation may occur. A respiratory protection program that meets applicable regulatory requirements must be followed whenever workplace conditions warrant use of a respirator.

**Eye / face protection**

Safety glasses with side protection shield (EN 166)

**Hand protection**

In case of intensive contact, wear protective gloves (EN 374). Sufficient protection is given wearing suitable protective gloves checked according to i.e. EN 374, in the event of risk of skin contact with the product. Before use, the protective gloves should be tested in any case for its specific work-station suitability (i.e. mechanical resistance, product compatibility and antistatic properties). Adhere to the manufacturer's instructions and information relating to the use, storage, care and replacement of protective gloves. Protective gloves shall be replaced immediately when physically damaged or worn. Design operations thus to avoid permanent use of protective gloves.

Appropriate Material	Butyl rubber, Natural rubber, Neoprene, Nitrile, Polyvinyl chloride (PVC), Tyvek
Material thickness	mm
Breakthrough time	appr. min.
Appropriate Material	In case of short-term contact / splash protection:
Appropriate Material	nitrile

**Other**

Wear protective clothing to minimize skin contact. When potential for contact with dry material exists, wear disposable coveralls suitable for dust exposure, such as Tyvek®. Contaminated clothing should be removed and laundered before reuse.

**Environmental exposure controls**

No data available.

**SECTION 9: Physical and chemical properties****9.1 Information on basic physical and chemical properties****Form/Colour**

Tablets; granules  
White / off white

**Odour**

Slight chlorine odour.

**Trade name:** PRESEPT™ Disinfectant Tablets

**Product no.:** MSDS-0011007a

**Current version :** 1.0.1, issued: 26.01.2015

**Replaced version:** 1.0.0, issued: 16.12.2014

**Region:** GB

## Odour threshold

No data available

## pH value

Value 5,0 - 6,5  
Reference temperature °C

## Boiling point / boiling range

Value Not applicable (solid) °C

## Melting point / melting range

Value No data available °C

## Decomposition point / decomposition range

225 - 250°C

## Flash point

Not applicable (solid)

## Auto-ignition temperature

No data available

## Oxidising properties

No data available

## Explosive properties

No data available

## Flammability (solid, gas)

No data available

## Lower flammability or explosive limits

No data available

## Upper flammability or explosive limits

No data available

## Partition coefficient: n-octanol/water

Log Kow = 0

## Viscosity

No data available

## SECTION 10: Stability and reactivity

### 10.1 Reactivity

No data available.

### 10.2 Chemical stability

Stable

### 10.3 Possibility of hazardous reactions

Hazardous Polymerisation will not occur.

### 10.4 Conditions to avoid

The active ingredient in this preparation is a strong oxidising agent. The preparation of concentrated solutions or slurries is not recommended. Avoid contact with water on concentrated material in the container. Do not get water inside packaging.

**Trade name:** PRESEPT™ Disinfectant Tablets**Product no.:** MSDS-0011007a**Current version :** 1.0.1, issued: 26.01.2015**Replaced version:** 1.0.0, issued: 16.12.2014**Region:** GB**10.5 Incompatible materials**

Strong acids and/or alkalines. Reducing agents. Combustible material. Also avoid contact with easily oxidisable organic material: ammonia, urea or similar nitrogen containing compounds; inorganic reducing compounds; floor sweeping compounds; calcium hypochlorite and alkalis.

**10.6 Hazardous decomposition products**

Chlorine, Nitrogen trichloride, Cyanogen chloride, Oxides of carbon, Phosgene.

**SECTION 11: Toxicological information****11.1 Information on toxicological effects****Acute oral toxicity**

LD50	>	2000	mg/kg
Species	rat		

The information below relates to Sodium Dichloroisocyanurate in its pure form.

**Acute oral toxicity**

LD50	=	1823	mg/kg
Species	rat		

**Acute dermal toxicity**

LD50	>	5000	mg/kg
Species	rabbit		
No data available			

**Acute inhalational toxicity**

LC50	>	0,27	<	1,17	mg/l
Species					

**Skin corrosion/irritation**

No data available

**Serious eye damage/irritation**

Irritant

**Respiratory or skin sensitisation**

Irritant

**Germ cell mutagenicity**

Not mutagenic in 5 salmonella strains and 1 E. coli strain.

**Reproduction toxicity**

There are no known or recorded effects on reproductive function or foetal development

**Carcinogenicity**

Not classified by NTP, IARC or OSHA

**STOT-single exposure**

No data available

**STOT-repeated exposure**

No data available

**Aspiration hazard**

No data available

**Delayed and immediate effects as well as chronic effects from short and long-term exposure**

No data available

**Trade name:** PRESEPT™ Disinfectant Tablets

**Product no.:** MSDS-0011007a

**Current version :** 1.0.1, issued: 26.01.2015

**Replaced version:** 1.0.0, issued: 16.12.2014

**Region:** GB

## SECTION 12: Ecological information

### 12.1 Toxicity

The information below relates to Sodium Dichloroisocyanurate in its pure form.

#### Fish toxicity

LC50	0.25-1.0	mg/l
Duration of exposure	96	h
Species	Bluegill Sunfish	
LC50	0.13-0.36	mg/l
Duration of exposure	96	h
Species	Rainbow Trout	
LC50	1.21	mg/l
Duration of exposure	96	h
Species	Inland Silverside	

#### Daphnia toxicity

EC50	0.196	mg/l
Duration of exposure	48	h
Species	Water flea	

#### Algae toxicity

No data available

#### Bacteria toxicity

No data available

### 12.2 Persistence and degradability

The materials used in this preparation will not persist in the environment. The free available chlorine from Sodium dichloroisocyanurate is rapidly consumed by reaction with organic and inorganic materials to produce chloride ion. The stable degradation products are chloride ion and cyanuric acid. Sodium Dichloroisocyanurate is subject to hydrolysis. Cyanuric acid produced by hydrolysis is biodegradable.

### 12.3 Bioaccumulative potential

Trichloroisocyanuric acid hydrolyses in water liberating chlorine and cyanuric acid. These products are not bioaccumulative.

### 12.4 Mobility in soil

No data available.

### 12.5 Results of PBT and vPvB assessment

The substances contained in this preparation are not identified as PBT substances.

### 12.6 Other adverse effects

No data available.

### 12.7 Other information

#### Other information

Product is not allowed to discharge into aquatic environment, drains or sewage treatment plants.

## SECTION 13: Disposal considerations

### 13.1 Waste treatment methods

#### Product

Allocation of a waste code number, according to the European Waste Catalogue, should be carried out in agreement with the regional waste disposal company. Do not put product, spilled product, partially filled containers into the waste compactor. Contact with incompatible materials could cause a reaction and fire. Do not transport damp or wet material. Neutralise materials to a non-oxidising state for safe disposal.

#### Packaging

Residuals must be removed from packaging and when emptied completely disposed of in accordance with the regulations for waste removal. Incompletely emptied packaging must be disposed of in the form of disposal specified by the regional disposer. Clean container and dispose of according to local and national regulations.

## SECTION 14: Transport information

Product is not classified as hazardous for transport under Spezial Provision 335.

### 14.1 Transport ADR/RID

Not classified as Dangerous Goods

### 14.2 Transport IMDG

Not classified as Dangerous Goods

**Trade name:** PRESEPT™ Disinfectant Tablets

**Product no.:** MSDS-0011007a

**Current version :** 1.0.1, issued: 26.01.2015

**Replaced version:** 1.0.0, issued: 16.12.2014

**Region:** GB

## 14.3 Transport ICAO-TI / IATA

Not classified as Dangerous Goods

## 14.5 Other information

Independent tests, carried out by TNO Prins Maurits Laboratory, according to United Nations Recommendations on the Transport of Dangerous Goods, Manual of Tests and Criteria, third revised edition, test O.1. has demonstrated that these products are not oxidising for transport. Furthermore, based on a bridging formula from section 2.9 of the UN Model Regulations 2011 the tablet mixture is not characterized as an acute aquatic hazard.

## 14.6 Environmental hazards

Information on environmental hazards, if relevant, pls. see 14.1 - 14.3..

## 14.7 Special precautions for user

No data available.

## 14.8 Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Not relevant.

## SECTION 15: Regulatory information

### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

#### EU regulations

**Council Directive 96/82/EC on the control of major-accident hazards involving dangerous substances**

Remarks Annex I, part 2, category 3

#### National regulations

#### Other regulations

Adhere to chemicals prohibition.

### 15.2 Chemical safety assessment

No data available.

## SECTION 16: Other information

Changes made since the last version

#### **Sources of key data used to compile the data sheet:**

EC Directive 67/548/EC resp. 99/45/EC as amended in each case.

Regulation (EC) No 1907/2006 (REACH), 1272/2008 (CLP) as amended in each case.

EC Directives 2000/39/EC, 2006/15/EC, 2009/161/EC

National Threshold Limit Values of the corresponding countries as amended in each case.

Transport regulations according to ADR, RID, IMDG, IATA as amended in each case.

The data sources used to determine physical, toxic and ecotoxic data, are indicated directly in the corresponding chapter.

[http://limitvalue.ifa.dguv.de/WebForm\\_ueliste.aspx](http://limitvalue.ifa.dguv.de/WebForm_ueliste.aspx)

#### **Full text of the H- and EUH- phrases drawn up in sections 2 and 3 (provided not already drawn up in these sections)**

H 272	May intensify fire; oxidiser.
H 302	Harmful if swallowed.
H 319	Causes serious eye irritation
H 335	May cause respiratory irritation.
H 400	Very toxic to aquatic life
H 410	Very toxic to aquatic life with long lasting effects
