To Whom It may Concern,

FILIP CAMPSIE has attended OB&GYN observership internship programme attached to me between 10.09.2018 and 26.10.2018 During this period, he has attended perinatology, gynecological oncology, gynecology & obstetrics outpatient clinics. He has also observed many cesarean section deliveries and gynecology operations at the operating theatre. He has also attended many vaginal deliveries in the delivery ward. He continued the programme with no abstinence. He was always on time and very interested in the examinations & operations. He has good communicative skills both with the patients and the other doctors at the department. I wish him all the best in his professional life.
