

Bragança Paulista, 29 September 2016

Dear Professor,

I declare that the student Katerina Kadlecová was in my laboratory in the period August-2016. In this period, the student developed several laboratory techniques and clinical management in the hospital (as mentioned in the book of activities). The yield of the student was satisfactory despite the short time moreover, the student developed activities full time.

Contact me for any question, please!

Best regards

Dr. Mário Angelo Claudino  
Prof. Assistente do Programa de Pós-Graduação em Ciências da Saúde  
Universidade São Francisco (USF)
