To whom it may concern:

This letter is to certify that Laura Ciskova has attended an ophthalmology internship of two weeks in Medipol Mega University Hospital, Istanbul and during this period Laura has not only observed our work in the outpatient clinic and at the operating theatre but has also actively participated in many tasks.

She had the opportunity to observe robotic 3D eye surgeries which had been carried out for the first time in the operating room of our hospital.

She was very ambitious and hard working student with great attitude. I can sincerely say that she has an affinity to learn about Ophtalmology.
