

## Reference letter

**Name and surname:**

Zuzana Cyžová

**Place of internship:**

Hospital de Visão, Campina Grande, Brazil  
Clínica Escola da Unifacisa, Campina Grande, Brazil

**Length of internship:**

1.7.2022 - 31.7.2022

My name is Dr. Diego Nery Benevides Gadelha, I'm a director of Unifacisa university, director of Hospital da Visão and Cornea and Refractive surgery specialist.

I had a pleasure of tutoring Zuzana Cyžová, who had spent her internship at Hospital de Visão and Clínica Escola Unifacisa during July 2022.

During her internship, she was introduced to both basic and advanced examination techniques in Ophthalmology, such as history taking, vision measurement, slit lamp examination, direct and indirect fundoscopy, gonioscopy or removal of foreign bodies. She was able to observe a great variety of procedures such as corneal transplant, refractive surgery, Keraring implant, cataract surgery, anterior chamber IOL, vitrectomy, trabeculectomy, eye enucleation, pterygium surgery and others. During surgeries, Zuzana actively participated asking penetrating questions and was curious about all the different approaches and methods used in Ophthalmology. She was also introduced to the principles of postoperative care including stitch removal and others. She had a possibility to deepen her understanding of clinical disease management and patient care in the field of Ophthalmology.

Zuzana is brilliant and very dedicated student. I was impressed by her knowledge and commitment to learn. Furthermore, she has great communication skills and awesome attitude during her professional and personal activities.

I would recommend her for any further field of Ophthalmology and would like to express my best wishes for a successful professional career.

Dr. Diego Nery Benevides Gadelha
