Palacký University Olomouc

Dean's Office

Dear Graduate Program selection committee,

I am writing this letter to recommend Alon Ushman for consideration in the "Graduate Program at FN Olomouc". As the Head of the I. Surgical Department at FN Olomouc, I can share about Alon's active involvement at my department over the past 2 years, and I am confident in his potential to excel in the graduate program.

Alon has consistently demonstrated a commitment to the field of surgery, which was evident by his active participation in our department. His enthusiasm to learn, work ethic and compassionate patient care has set him apart from his peers. Alon has been actively seeking additional practice, eager to assist in the Operating Room, participate in SVOC research projects and having a role of a student teacher assistant.

In the Operating Room, Alon has proven to be a valuable asset. He has gained hands on experience in various surgical cases and demonstrated his technical skills, attention to details and compassion. His willingness to take on responsibilities beyond the standard curriculum showcases his passion for surgery and a genuine desire to contribute to patient care.

Moreover, Alon was actively involved in a SVOC research project on the treatment of diffuse peritonitis at our department. His work was presented at the 54th annual SVOC conference, at which he was awarded 3rd place at the English section.

In addition to his clinical and research activity, Alon has taken on the role of a student teacher assistant at the suturing courses lead by our department, demonstrating leadership and effective communication skills with fellow students. I am confident that Alon will continue and expand upon our department's educational initiatives as part of the Graduate Program and will inspire the next generation of medical professionals within our institution.

Given Alon's exemplary performance, both clinically and academically, I believe he is exceptionally well suited for the graduate program at FN Olomouc. His passion for surgery, combined with his work ethic and team work skills, make him a standout candidate.

I am confident that Alon Ushman will make significant contributions to the program and become a skilled and compassionate surgeon.

In case of any additional information is required, please do not hesitate to contact me.

Sincerely,

Dušan Klos
