Higher Education System in the Czech Republic

Higher education institutions form the highest level of Czech education. They offer accredited study programmes at three levels - Bachelor's, Master's, and doctoral, as well as lifelong learning. Higher education institutions are either university-type or non-university-type.

University-type higher education institutions may offer all types of degree programmes (Bachelor's, Master's and doctoral) and carry out associated scholarly, research, developmental, artistic or other creative activities. Non-university-type higher education institutions offer mainly Bachelor's degree programmes, but may also provide Master's degree programmes and carry out associated scholarly, research, developmental, artistic or other creative activities.

There are public, state and private higher education institutions. The public and private higher education institutions come under the responsibilities of the Ministry of Education, Youth and Sports, while state institutions (the University of Defence and the Police Academy of the Czech Republic) are under the responsibility of the Ministry of Defence and the Ministry of the Interior. The complete list of higher education institutions is available at: <http://www.msmt.cz/files/html/Vswwwser1.htm> or [www.csvs.cz](http://www.csvs.cz).

Higher education is realised within the framework of accredited degree programmes in accordance with their curricula and given mode of studies. The mode of study may be on-site, distance or a combination of both. Admission to a Bachelor's or long-cycle Master's degree programme is conditional on the completion of a secondary education with a "maturita" examination. Admission to a Master's degree programme is conditional on graduating from a Bachelor's degree programme, while admission to a doctoral degree programme is conditional on graduating from a Master's degree programme. Higher education institutions and faculties are free to specify additional conditions for admission to studies that relate to specific knowledge, abilities, talent etc.

Higher Education Qualifications

The qualification structure recognises Bachelor's, Master's and doctoral levels.

A Bachelor's degree programme ("bakalářský studijní program") aims at providing qualifications for entering a profession or a Master's degree programme. It takes from 3 to 4 years (180 - 240 ECTS credits). Graduates receive the academic degree "bakalář umění" (Bc. - Bachelor of Fine Arts) in the field of arts, and "bakalář" (Bc. - Bachelor) in other fields. The degree examination, which is usually completed in due form with a final state examination, must be completed in the presentation and defence of a Bachelor's thesis.

A Master's degree programme ("magisterský studijní program") follows a Bachelor's degree programme. The length is 1 to 3 years (60 - 180 ECTS credits). In selected fields, where the nature of the degree programme so requires, a Master's degree programme need not follow on from a Bachelor's programme. In this case, the programme lasts 4 - 6 years (240 - 360 ECTS credits). Graduates in a Master's degree programme must take a final state examination and publicly present and defend a Master's thesis. Studies in the fields of medicine, veterinary medicine and hygiene are completed by passing an advanced Master's ("rigorózní") state examination including the presentation and defence of an advanced Master's ("rigorózní") thesis.

The studies in a Master's programme lead to the following academic degrees:

- "inženýr" (Ing.) - Engineer, in the area of economics, technical sciences and technologies, agriculture and forestry and in military fields of study;
- "inženýr architekt" (Ing.arch.) - Engineer Architect, in the field of architecture;
- "doktor medicíny" (MUDr.) - Doctor of Medicine, in the field of medicine;
- "doktor zubního lékařství" (MDDr.) - Doctor of Dental Medicine, in the field of dental medicine (since 2004);
- "doktor veterinární medicíny" (MVDr.) - Doctor of Veterinary Medicine, in the field of veterinary medicine and hygiene;
- "magistr umění" (MgA.) - Master of Fine Arts, in the area of fine arts;
- "magistr" (Mgr.) - Master, in other areas of study.

Courses in human medicine and veterinary medicine last 6 years. They are run by the university medical faculties and faculties of veterinary medicine.

Holders of the academic degree "magistr" are entitled to take an advanced Master's ("rigorózní") state examination in the same area of study and defend an advanced Master's ("rigorózní") thesis. If completed successfully, the following academic degrees are awarded:

- "doktor práva" (JUDr.) - Doctor of Law, in the field of law;
- "doktor filosofie" (PhDr.) - Doctor of Philosophy, in the area of the humanities, teacher education and social sciences;
- "doktor přírodních věd" (RNDr.) - Doctor of Natural Sciences, in the field of natural sciences;
- "doktor farmacie" (PharmDr.) - Doctor of Pharmacy, in the field of pharmacy;
- "licenciát teologie" (ThLic.) - Licentiate of Theology, in the field of Catholic theology;
- "licenciát teologie" (ThLic.) - Licentiate of Theology, or "doktor teologie" (ThD.) - Doctor of Theology, in the field of non-Catholic theology.

All above-mentioned academic titles are at Master's level and their abbreviations are written in front of the name.

The standard length of a doctoral degree programme ("doktorský studijní program") is either 3 or 4 years. Doctoral studies are completed by the state doctoral examination and the public presentation and defence of a doctoral thesis (dissertation). Graduates based on original results, which must be published. Graduates of a doctoral degree programme are awarded the academic degree of:

- "doktor" (Ph.D.) - Doctor;
- "doktor teologie" (Th.D.) - Doctor of Theology, in the field of theology.

The abbreviations of these academic titles are written after the name.

Academical year

Study year is divided chiefly into semesters, years or blocks. Each semester, year or block consists of a teaching period, an examination period and a vacation period. The length of the academic year is twelve calendar months; the Rector decides on the date when the academic year begins.

Credit system

The ECTS credit system is used at most higher education institutions.

# DIPLOMA SUPPLEMENT / DODATEK K DIPLOMU

Diploma No / Diplom č.: UP \* 057313

This Diploma Supplement follows the model developed by the European Commission, Council of Europe and UNESCO/CEPES. The purpose of the supplement is to provide sufficient independent data to improve the international "transparency" and fair academic and professional recognition of qualifications (diplomas, degrees, certificates etc.). It is designed to provide a description of the nature, level, context, content and status of the studies that were pursued and successfully completed by the individual named on the original qualification to which this supplement is appended. It should be free from any value judgements, equivalence statements or suggestions about recognition. Information in all eight sections should be provided. Where information is not provided, an explanation should give the reason why.

Tento dodatek k diplomu odpovídá modelu vytvořenému Evropskou komisí, Radou Evropy a organizacemi UNESCO / CEPES. Účelem dodatku je poskytnout odpovídající nezávislé údaje, které přispějí ke zlepšení mezinárodní "průhlednosti" a spravedlivosti akademického a profesního uznávání kvalifikací (diplomů, titulů, osvědčení atd.). Dodatek je určen pro popis podstaty, obsahu, úrovně a postavení studií, která byla uskutečněna a úspěšně dokončena držitelem kvalifikace, ke které je tento dodatek připojen. Dodatek nemá obsahovat žádná ocenění, prohlášení o rovnocennosti nebo doporučení k uznání. Je třeba, aby všech osm částí dodatku bylo vyplněno. Tam, kde informace poskytnuty nebudou, mělo by být uvedeno vysvětlení proč.
